B. Administration and Problems:

Records Management Section - At the request of the Regulations Control Staff, approximately 2½ cu. ft. of records material was transferred to the Records Center. This appears to be the same material which we proposed to transfer to the Records Center at the time of the survey in Organization and Methods Services. At that time, the persons in charge of the file felt that the material was needed in the office.

This Agency maintains the original copies of certain records for the General Accounting Office. In order to schedule the disposition of these records, a letter has been addressed to the Comptroller General requesting the retention period established for such records by that Office.

A condensed version of the talk given by [ ] at the recent Training Program has been forwarded to [ ] for review. Upon her approval, it is proposed to issue it in a Training Bulletin.

[ ] of the Office of Training has informally requested advice regarding their plans for the teaching of the proposed Agency Filing Manual. We have indicated that the plans should include teaching of the system to both new employees and old employees taking refresher courses. She was told, however, that final approval of the Manual is still pending.

Further meetings with the Area Records Officers have been postponed until issuance of the second Bulletin, outlining instructions for inventorying. The delivery date for this Bulletin is 17 June.

A request for twelve (12) each of the 2½" and 4" desk lock boxes is being processed. These boxes will be distributed to get comments of users prior to placing any larger order. The prices quoted for the boxes on this initial order are \$15.00 for the 2½" boxes and \$18.00 for the 4" boxes. Price quotations for quantity purchases will be given by the manufacturer after they have gained experience in making the boxes for the first order.

The survey of the Index Branch in the Contact Division of OO has been completed. The analysts are now working in the Office of the Deputy for Collection.

All Area Records Officers have been contacted and supplied pads of the new Vital Materials Transfer Slips. Work was started this week on microfilming for Vital storage of the five (5) quarterly projects in the Office of Personnel. [ ] Area Records Officer for OCD, visited the Repository this week. He is presently conducting a study of the Vital Materials Program within OCD. A revised listing of Vital Materials within OCD will be supplied this office when this study has been completed.
